Corvallis, Oregon

Courses

- Analysis of Algorithms
- Software Engineering 1
- Data Structures
- Web Development

BS in Psychology

University of Houston

08/2010 – 05/2014

PERSONAL PROJECTS

Fantasy Football Database (MySQL, HTML, Node.js, JavaScript)

- Created a build your own fantasy team database. Users can add, remove and edit their players.

Money finder game (C++)

- Built a text based game where the user's goal is to get to the money.

GoodFit - Elderly Housing Simplified (JavaScript, MySQL, Node.js, HTML)

- Group Project in which we created a web portal for people to search for elderly housing. As a group we had a "customer" who we met with regularly to reach his ideal product. We created a landing page, description page and also a sign up page.

Personal Website (HTML, CSS and Bootstrap 4)

- andresarizala.dev
- Personal website that I will continuously update.
